25X1X7

The Clandestine Services imposes no objection to your request for the DDI team going to [REDACTED] to disseminate 25X1X7
to [REDACTED] government officials that portion of the 25X1X7
listing of Communist Chinese imports, that would contribute to
their advanced weapons program, that is based on Clandestine
Services reporting. It is understood that the listing will contain only the name of the item--no date of delivery, no country of origin, no unique specifications that would pinpoint the country of origin--only the fact that the Chinese Communists have imported these items.
